<input type="checkbox"/> Continuation Sheet Attached					

Brief Description of Arguments to be Presented:

Zamora fails to disclose or suggest a tampon pledget with an inverted coverstock, let alone one with an insertion end and a removal end that each have one or more pleats, or an inverted coverstock that is hydrophilic. Sneider fails to disclose or suggest a tampon pledget with an inverted coverstock, let alone one with an insertion end and a removal end that each have one or more pleats.

An interview was conducted on the above-identified application on 7/6/06.

NOTE: This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
